

Symposium on modeling in Energy Economics

Monday, 23 January 2012, ZUE G1

Tuesday, 24 January 2012, ZUE G1

Dear Economists

We cordially invite you to this symposium.

Program Monday

- 14:00 – 14:45 **Prof. Dr. Dominik Möst, Technische Universität Dresden**
Renewable energy sources in European energy supply and impacts on energy markets
- 16:00 – 16:45 **Prof. Dr. Andreas Löschel, Zentrum für Europäische Wirtschaftsforschung, Mannheim**
European Energy and Climate Policy – An Economic Impact Assessment

Program Tuesday

- 08:00 – 8:45 **Dr. Massimo Tavoni, Fondazione Eni Enrico Mattei, Milano**
A model based assessment of clean energy innovation and climate mitigation policies
- 10:00 – 10:45 **Dr. Sebastian Rausch, Massachusetts Institute of Technology**
Cap-and-Trade Climate Policies with price-regulated industries: How costly are free allowances
- 12:30 – 13:15 **Dr. David Anthoff, University of California, Berkley**
Optimal Global Dynamic Abatement

Kind regards and thank you for your interest.

Rina Fichtl

Assistant to Professor M. Filippini
